Dear Sample A Sample:

NOTICE OF DATA BREACH

AIM Inc understands the importance of protecting personal information. We are writing to inform you about an incident involving some of your information.

WHAT HAPPENED?

AIM Inc received a report on April 4, 2016, that an unauthorized person was able to gain access to certain images that had been uploaded to our website. We immediately conducted an investigation, engaged a leading security firm, and alerted law enforcement. The investigation determined that the unauthorized person identified an issue in the document upload feature of the website that customers used to upload firearms license and documents for age verification.

WHAT INFORMATION WAS INVOLVED?

The information in the image you provided may include your name and state ID. No payment, order history, or account information was affected.

WHAT YOU CAN DO.

We recommend that you remain vigilant to the possibility of identity theft by reviewing your credit report for any unauthorized activity. To help protect your identity, we are offering a complimentary one-year membership of Experian's® ProtectMyID® Alert. This product helps detect possible misuse of your personal information and provides you with superior identity protection support focused on immediate identification and resolution of identity theft. Due to privacy laws we are not able to enroll you directly. For more information on identity theft prevention and ProtectMyID® Alert, including instructions on how to activate your free membership, please see the additional information provided in this letter. You should also review the More Information on Ways to Protect Yourself section that follows.

WHAT ARE WE DOING?

We removed all of the images from the website server and worked with the security firm and the vendor that hosts the website to enhance the security of the upload feature. The security firm conducted a review of the entire website to look for any other issues. In addition to a comprehensive review of the website, we are working with the security firm to implement enhanced security measures.
